

SAFER AT HOME

Fairs and Festivals

General Protection:

1. Follow [Universal Guidelines](#)
2. Follow [Restaurant and Food Service Guidance](#) where applicable.
3. Follow [CDC Guidance for Cleaning and Disinfecting](#)
4. Follow [Retail Guidance](#) where applicable.
5. Follow [Performing Arts Venue Guidance](#) where applicable.
6. Follow [Amusement Park Guidance](#) where applicable.
7. Follow Large Outdoor Venue Guidance where applicable.

Consumer Protection:

1. While Emergency Executive order #74 is active, staff, performers, production crews, exhibitors, and volunteers must wear cloth face coverings when in a facility, in public locations, shared staff areas (e.g. break rooms), and when interacting with patrons, even if outdoors (e.g. operating a ride or booth). Outdoor employees may temporarily remove their masks when no other individuals are within 6 feet. If Emergency Order #74 expires, it is still recommended all clients and employees wear a mask while within the establishment when social distancing cannot be maintained.

General Business Process Adaptations:

1. Elevators, if present in the facility, should be limited to one person or associated group at a time.
2. Events must incorporate social distancing into the operation of restrooms, performance/event seating, and food service. Special consideration should be taken with parking and public transportation (shuttle buses, golf carts, carriages, etc.).
3. Admission limits will be determined for daily and hourly capacities to ensure appropriate social distancing pursuant to the Universal Guidelines.
4. Any location where people may queue up — restroom, water station, shuttle bus, food truck, exhibitor's table/tent — should have markings, where practical, to reinforce six feet of separation.
5. If shuttle buses are used, capacity should be determined by social distance limitations. Those who live together may be seated together. Lines for buses must have clearly marked spots designating 6' distancing.
6. Organizers should consider increasing the number of entrances/exits where possible to alleviate issues with bottlenecks.
7. A 3 foot buffer must be maintained between Exhibitor tables/booths. Buffers should not be used for pedestrian traffic and should be blocked.
8. Site Specific Communications Plans: Festival and fair organizers should have a SITE/EVENT SPECIFIC communication plan to inform attendees prior to their visit about health and safety practices at the event and other information attendees need upon arrival. SITE SPECIFIC Plans may include: websites, social media, email or other electronic communication, such as reservations or confirmations, and print.
9. Respect the right of Fairs and Festivals to have requirements over and above these recommendations.
