RE: CORD Surplus Land Review – Proposed Grant of Perpetual Utility Easement to Eversource Energy across Hampstead Hospital land

Dear Sir/Madam:

The Department of Administrative Services (DAS), acting on behalf of the New Hampshire Department of Health and Human Services (DHHS) at the request of the DAS Division of Public Works, proposes to dispose by transfer to Public Service Company of New Hampshire, d/b/a Eversource Energy, a perpetual utility line easement across portions of 2 abutting Hampstead Hospital land parcels to accommodate the installation of new electrical utility lines on site to serve the new facility currently under construction to replace the existing Sununu Youth Services Center in Manchester. The proposed easement is to be granted to Eversource in exchange for making available and maintaining electrical utility services for the proposed new facility.

The proposed easement area will run from abutting East Road, where the primary Hampstead Hospital access driveway begins, along the easterly side of the existing driveway (potentially through existing subsurface conduit), around behind (northwesterly of) the proposed new building, and will terminate at or near the parcel boundary with abutting Lot 128. It is not yet clear whether the proposed lines will remain subsurface or will be run overhead once the route of the proposed new utility lines breaks away from the existing driveway adjacent to the site of the proposed new building. The State-owned Hampstead Hospital campus property includes 3 tax parcels of land, 2 of which are likely to be affected by the proposed easement (Tax Map 13, Lots 3 & 128). The primary (largest) Hampstead Hospital parcel is Lot 3, which is where most of the existing Hampstead Hospital building is situated, where the proposed new building is being constructed, and where almost all of the proposed easement area will be located.

Please submit the attached Surplus Land Review application to CORD for the requested review and recommendation for disposal of the proposed utility easement.

Respectfully submitted,

Jared J. Nylund
Real Property Asset Manager

Council on Resources and Development
REQUEST FOR SURPLUS LAND REVIEW ACTION

Name of Requesting Agency: Administrative Services (on behalf of DHHS)

Agency Contact Person: Jared Nylund, DAS Real Property Asset Manager
Address: 25 Capitol Street, Room 308, Concord, NH 03301
Phone Number: (603) 271-7644
E-Mail: Jared.j.nylund@das.nh.gov

Applicant Contact Person: same as above
Address: _____
Phone Number: _____
E-Mail: _____

Location of Property: Hampstead Hospital Campus
218 East Road, Hampstead, NH 03841
(Tax Map 13, Lots 3, 128 & 129)

Acreage: Area of land to be subject to easement unknown (20-foot-wide easement area)

Requested Action: Grant of utility line easement to Eversource across campus land to serve new building currently under construction

Term of Lease or Easement: Perpetual utility easement

.....

Please complete ALL questions below and submit one digital copy via email and one hardcopy with original signatures, of the completed application to:

NH Bureau of Economic Affairs
Attn: NH Office of Planning & Development
100 North Main St, Suite #100,
Concord, NH 03301
Attn: Stephanie N. Verdile, Principal Planner brendan.m.mcdowell@livefree.nh.gov

1. What is the current use of this property?

Host parcels:

1. Location of existing State-owned Hampstead Hospital facility operated by Dartmouth Hitchcock under contract and lease agreement with State of NH/DHHS
2. Future location of new DHHS facility to replace Sununu Youth Services Center in Manchester (currently under construction)

2. What is the proposed use of this property if surplus? Please note if proposed use is intended to create a public benefit.

Proposed easement area:

Perpetual electrical utility line easement to accommodate new lines to be run from abutting roadway to new building under construction, in part through existing subsurface conduit running along the main driveway access to the host parcel from East Road

3. Does the proposed use of this property entail new development? ☐ Yes ☒ No

- a. If yes, is it consistent with adjacent and existing development? ☐ Yes ☐ No
- b. Please describe how the proposed new development differs from or is similar to its surroundings. Also indicate how it may initiate a future change in the use of the property or its surroundings.

4. Are there any structures located on this property? ☒ Yes ☐ No

- a. If yes, please describe the structures including how many and what kind?

The Hampstead Hospital building and its associated outbuildings and facilities are located and operated on the host parcels. The proposed replacement facility for the SYSC in Manchester is currently under construction on the largest of the 3 host parcels (Tax Map 13, Lot 3). The proposed new utility easement areas may include existing and/or new structures to be installed within 2 of the 3 the host parcels (Tax Map 13, Lots 3 and 128) including utility lines, subsurface conduits, overhead pole lines, and associated electrical power transmission/distribution structures and apparatus.

5. Are there historical architectural or archaeological resources identified on this site?

☐ Yes ☒ No

- a. If yes, describe the resource(s)?

- b. If no, contact the NH Division of Historical Resources prior to application submission.

6. Is there any existing development or structures on adjacent sites? ☒ Yes ☐ No

- a. If yes, describe the use and number of structures of adjacent sites.
If no, where is the nearest development? (Describe distance, use, and number)

Abutting parcels are mostly developed single family residential house lots (to the southeast), or commercial properties (to the northwest), but there is also an adjacent apartment complex across East Road to the southwest and a few larger abutting parcels to the northeast that appear to be partially or fully undeveloped.

7. Does the site represent the entire state property in this location? ☐ Yes ☒ No

- a. If no, please describe its relationship to the entire state holding (percentage of total acreage, percentage of overall rail length, etc).

In addition to the 2 host parcels to be affected by the proposed easement, the State owns a third abutting parcel with access from Garland Drive that is occupied by part of one wing of the main Hampstead Hospital building (Tax Map 13, Lot 129).

8. Is access to this property available? ☒ Yes ☐ No

- a. If yes, how is the site accessed? (from rail, water, across applicant's property, etc)

Driveways from East Road and Garland Drive

- b. If yes, is there a potential for public access interruption? ☐ Yes ☒ No

9. Are there water resources related to this property, such as:
Lakes/Ponds - ☐ Yes ☒ No **OR Rivers -** ☐ Yes ☒ No **OR Wetlands -** ☒ Yes ☐ No?

- a. If yes, please indicate the size or extent of such resources.

There appears to be a wet wooded swale or marshy woodland area partially located within the lowest (by elevation above sea level) portion of the largest host parcel near its southwesterly corner that appears to drain northwesterly away from the remainder of the host parcel. The portion of this wet area within the host parcel appears on the Town GIS maps and GRANITView to be roughly 6 acres in size.

- b. If yes, briefly describe how the requirements of RSA 483-B (Shoreland Water Quality Protection Act) apply to potential development of this property:

N/A

- c. If yes, briefly describe how any municipal zoning requirements for buffers or setbacks from lakes, rivers or wetlands apply to potential development of this property:

N/A to proposed easement

- d. Is the property within 250 feet of a lake/pond or river/stream? ☐ Yes ☒ No

- e. If lakes or rivers are related to this property, describe current public or private access from the site to the water body? ☐ Public ☐ Private ☐ No Access Available

Description:

- f. How would the proposal affect the access opportunities described in e?

10. Please identify any other significant resources or sensitive environmental conditions known to be located on or adjacent to this property.

	Yes (property)	Yes (adjacent property)	No
a. Steep slopes	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Wetlands (Prime and NWI)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. Threatened or endangered species	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Wildlife Action Plan Critical Habitats	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Increased impervious surface	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Potential stormwater flow changes.....	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Agricultural soils of prime, statewide, or local importance	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Potential river channel change	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i. Other special designations	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Please provide a description for any "yes" responses to question #10.

All responses above pertain to the proposed easement area only.

10b. This is the forested wetland partially located on the largest host parcel described in 9a above, which according to GRANITView is listed in Version 2 of the NWI as a "Freshwater Forested/Shrub Wetland." Its closest edge appears to be located over 100 feet from the proposed easement area and on the opposite side of the existing main driveway therefrom.

11. Attach photographs and maps of the property. Maps should highlight the requested property location and help to adequately place the property within the town.

- a. Municipal tax map copy showing all abutters
- b. General location map with scale, north arrow, nearby roads, and water bodies/features*
- c. Aerial Photograph*
- d. Any site plans for new or proposed development prepared at the time of application
- e. Maps depicting rail lines, wetlands, conservation lands, rare species and exemplary natural communities, or topographic features are welcome but not required

* Maps can be created with GIS, Google, Mapquest, GRANIT data mapper, or any other readily available mapping service.

Please paste any maps and photographs submitted as part of this application here.
