

## 2017 POPULATION ESTIMATES OF NEW HAMPSHIRE CITIES AND TOWNS

Prepared by the New Hampshire Office of Strategic Initiatives

Date of Publication: August 2018

The Office of Strategic Initiatives (OSI) is required by law (RSA 78-A:25) to estimate the population of the state's municipalities on an annual basis. The law stipulates that the estimates be certified to the State Treasurer by August 19th and that they reflect population levels of the preceding year. Further, the law requires that the definition of resident be the same as that of the US Decennial Census.

The accompanying figures are ESTIMATES and are so labeled. Users of these figures should be aware that many of the data used to calculate the estimates were collected by local governmental units for purposes other than accounting for population change. The methods which convert these data into estimated population, such as building permits, have been developed to reflect true population insofar as possible. Data used to calculate estimates in past years are subject to change. For this and other reasons, OSI strongly recommends that these estimates not be compared on a year-to-year basis.

Some communities may have estimating procedures that are different from those used by OSI. Also, some communities have established population figures based on their own enumeration (census) efforts. These local efforts can render highly accurate results. OSI however uses a uniform estimating system that is applied equally to all 234 communities. It is likely that if OSI staff were to estimate any one municipality on an individual basis, the resulting estimate would be different from the one contained herein.

The accompanying table shows the total population of New Hampshire's municipalities from the 2000 and 2010 censuses, and OSI's estimate for 2017. These figures are composed of the household population and of persons living in group quarters. Group quarters populations consist of persons living in college residence halls, some types of nursing homes, prisons, etc. Many municipalities have no group quarters populations. For the convenience of data users, the table shows the 2017 group quarters population that is part of the total estimated population.

Anyone wishing further information regarding these estimates should contact the Office of Strategic Initiatives, 107 Pleasant St., Concord, New Hampshire 03301 - telephone (603) 271-2155.

## OSI ESTIMATE METHODOLOGY

### For Estimating Total Population

The official estimates of population are based on a dwelling unit method. The method attempts to translate permits issued for new dwellings into estimated population.

The 2010 US Census serves as a benchmark; changes in the number of dwellings are used to update the dwelling unit counts by the US Census. Two rates are used to convert the estimated number of dwellings into estimated population. These rates are population per household and occupancy rates. The rates are taken from the 2010 decennial census.

The dwelling unit calculations estimate household population. Group Quarters population (persons living in residence halls, prisons, etc.) is estimated using the 2010 census and updated using an annual OSI survey of establishments known to have group quarters population.

The individual municipal estimates are proportionately controlled to an existing estimated state total. This state total is prepared with the state as a single statistical entity. In turn, this state total results from an adjustment to conform to a national total. The state total is prepared by the Census Bureau's Federal-State Cooperative Program for Population Estimates (FSCPE).

As an example, the 2017 calculations of the dwelling unit method for the town of Alton appear below:

| Census 2010 Total Units | Permits Issued to 2017 | 2017 Estimated Total Units | Percent of Units Occupied | 2017 Occupied Units | Population Per Household | 2017 Estimated Household Population |
|-------------------------|------------------------|----------------------------|---------------------------|---------------------|--------------------------|-------------------------------------|
| 4,281                   | 95                     | 4,376                      | 0.50105                   | 2,193               | 2.45                     | 5,372                               |

| 2017 Estimated Group Quarters Population | 2017 Raw Estimated Population (Household + Group Quarters) | State Total Adjustment (0.9865972) | 2017 Final Estimated Population |
|--|--|------------------------------------|---------------------------------|
| 0  | 5,372  | -72                                | 5,300                           |
