

DRAFT

Amendment to Phase 1 Attractions Guidance:

Under Business process adaptations:

13. For Tourist Sightseeing Trains, in addition to the Guidance contained in this document:
  - a) Assigned seating is required and seating layouts designed to provide a minimum of 6 feet of distancing within passenger cars. Family members may sit in close proximity to one another. Passengers will be required to wear cloth face coverings while in the passenger car.
  - b) NH residents providing proof of residency with a valid driver's license or other form of proof may be seated on the train cars specifically designated for them.
  - c) All guests will be boarded directly onto the cars in which they are assigned to ride. Guests will be seated from back to front to limit anyone walking closer than needed. Guests will be prevented from moving from car to car or trading seats with other guests.
  - d) On all days in where circumstances permit all windows in passenger coaches will be kept open to enhance the flow of fresh air within the passenger coaches. Cars equipped with air-conditioning systems will have their filters serviced after each day of operation.
