

2025 DWELLING UNIT RESPONSE FORM

New Hampshire Office of Planning and Development

To meet the requirements of RSA 78-A:25, OPD annually collects information on permits that increase or decrease the number of dwelling units in New Hampshire municipalities. When filling out this form, please do not include permits for improvements such as decks, porches, garages, or any addition that does not increase the number of units.

If your community does not have a permit system in place, please use the best comparable information available such as certificate of occupancy or other data you may have.

This is a fillable PDF. It can be completed online (downloading the form will allow to hover over terms in the table below for definitions) and submitted through email, or accessed on the OPD website: 2025 Dwelling Unit Survey.
